|-----------|--|
| PA-388-1  | Oakland Avenue Bridge in setting, facing northwest.  |
| PA-388-2  | Oakland Avenue Bridge spanning U.S. Route 62, facing west.   |
| PA-388-3  | East elevation, facing west.   |
| PA-388-4  | West elevation, facing northeast.  |
| PA-388-5  | Oakland Avenue Bridge, lateral view, facing southwest.   |
| PA-388-6  | Bridge substructure from northern abutment, facing south.  |
| PA-388-7  | Arch substructure, facing south.   |
| PA-388-8  | Northern approach, facing southeast.   |
| PA-388-9  | Southern approach, facing north.   |
| PA-388-10 | Northern approach and deck, facing south.  |
| PA-388-11 | Southern approach and deck, facing north.  |
| PA-388-12 | Northern abutment, facing north.   |
| PA-388-13 | Southern abutment, facing south. Note the pilings and remnants of the bents and struts of an earlier iron bridge.  |
| PA-388-14 | Detail of southern abutment, pier, pilaster, and spring line, facing east.   |
| PA-388-15 | Detail of northern pier, pilaster, spring line, open spandrel arches, and spandrel columns, facing northwest. Note the simple relief on the pilaster, indicative of the Stripped Classicism style. |

INDEX TO PHOTOGRAPHS  
OAKLAND AVENUE VIADUCT  
(Bridge No. 2302)  
HAER No. PA-388 (Page 2)

- PA-388-16 Interior of southern pilaster and spring line, facing east.
- PA-388-17 Detail of open spandrel on northeastern side of the bridge showing arch rib, spandrel arches, and spandrel columns, facing west.
- PA-388-18 Detail of the substructure of the bridge showing the interior of the open spandrel, facing northeast. Note how the decking rests upon the spandrel columns.
- PA-388-19 Detail of spandrel arch and spandrel column, facing east. Note the relief on the pilaster.
- PA-388-20 Detail of spring line showing the junction of the arch rib and the skewback, facing northwest. Note the connection of the skewback and the pilaster footing.
- PA-388-21 Detail of the crown of the arch, facing northeast.
- PA-388-22 Detail of northeast wing wall, parapet, and sidewalk, facing south.
- PA-388-23 Detail of southeast wing wall, facing east. Note recessed panel, indicative of the Stripped Classicism style.
- PA-388-24 Rock-faced, coursed ashlar wing wall on the southwest corner of the bridge, facing west.
- PA-388-25 Detail of the stepped top of the pilaster and the parapet, facing east.
- PA-388-26 Detail of aluminum plaque attached to the top of the northwest pilaster, facing west.
